

# Clean Large Tube Bundles Four Times Faster

THE RAM-5DC IS THE #1 CHOICE FOR CONTRACTORS AND FACILITY MANAGERS.

## RAM-5DC – Revolutionary Speed

With patented technology and over 15 years of proven performance, it's no wonder why the RAM-5DC is the machine of choice among contractors and facility managers with large tube bundles. The revolutionary Speed Feed gun combined with Goodway Blue Nylon Brushes will clean tubes up to four times faster than any other rotary tube cleaner. Minimal training time is required. As the cleaning tool loosens debris, the shaft casing provides a steady stream of water, flushing out debris and restoring system efficiency. While the Speed Feed gun lets you control the direction of shaft rotation as well as the flow of water, the variable speed function allows you to control both the brush rpm and the feed rate.
